Pete – Is this 10:30 Nickie mentioned below the pre-scheduled ORC/ERRD meeting ?

I'm in a meeting until 11 am but can make myself available if it would be helpful for me to join in for the 10:30

This scheduling date does not bode well for a Sept. 30 AOC. Nickie, can I assume you are not depending on this for a FY 2014 bean?

Hi,

It looks like a critical mass of PRPs can meet on Wednesday August 20<sup>th</sup>. See Kevin Maldonado's email below. I asked him to try to corral all the parties and let him know that we wanted to start negotiations asap. Our letter said we wanted to meet in 2 weeks but given the time of year I'm surprised we got a critical mass at all. I'm available on the 20<sup>th</sup>. Let me know your schedule. If we insist on meeting earlier we might not get enough participation and it might just be a waste of time.

Nickie/Jim – do you want to come to this meeting.

Everyone – let me know your availability.

Sharon

Sharon: It looks like we have a critical mass of parties available on the 20th of August. A number of parties have not responded, but a majority are available on the 20th. If that does not work for EPA, we will have to look at September.

Thanks, Kevin
